**PROJECT DESCRIPTION**

General improvements to the Town culinary water system.

Replace water distribution system in the Elsinore Addition and adjacent areas.

Removing old crumbling junction box and old crumbling head reducing box on the Spring transmission line.

Lead-end lines in the southwest area of town by running a new water line that connects into a trunk line on 1800 South to allow needed fire flow and water pres

Adding a screen to the sewer system.

Monroe City would have to install water inlets into the canal to disperse the storm water.

Monroe City penstock (water line to the power hydro's) is very old and in need of replacement.

Monroe City needs to install an energy source generator to provide power to our customers during peak times.

Chip seal Town roads, Shoulder repair, and curb and gutter on Main st.

Asphalt roads and installation of drainage system.

Rehab and replace Quitchupah road

Chip seal a few of our streets to extend the life of them

Modify drainage systems to handle flood water

Road improvements around Sevier River Road

Road Improvements on Nebeker Lane

Purchase new Structure truck to address need of fire department

Addressing drainage issues in Town hall parking lot and repaving.

Replace our old dilapidated, aging pool with a new one located on the same property slightly south of the existing pool.

Purchase a new Utility truck for the Town.

Update our General Plan Annexation and Housing Elements

Planning for Carbon fiber opportunities

Identification and development of infrastructure projects, including administration and technical support
